

Harvest Unchained.

Horning heads use gearboxes, not gathering chains. Increase forage harvest speed. Decrease the headaches. Now that's freedom.

Caring for dairy cattle is at the heart of who we are

Join the Dairy Cattle Welfare Council as we bring the dairy industry together for the well-being of our dairy herds.

Our mission is to advance the care and treatment of dairy cattle by bringing the dairy industry together to inform, educate and support continuous improvement of animal well-being on dairy farms.

Boost Newborn Calves' Vitamin Status

All newborn calves, especially during the first few weeks, need fat-soluble vitamins for optimum immunity and performance.

VITAL E®-NEWBORN
Research confirms VITAL E brand injectables have the most biologically available A, D and E vitamins.
