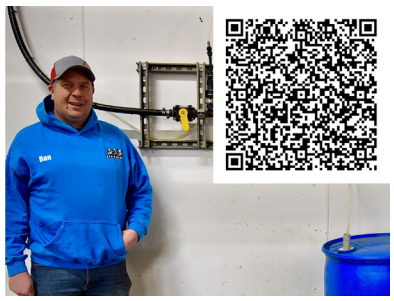
HoofStrong®



Redefine Your Animal Care with HoofStrong® UNITE.

Get the modern hoof bath system designed to help dairies of any size safely and consistently manage hoof care and reduce lameness. "The employees like it because it's a lot easier. We don't have to worry about breathing copper sulfate dust, plus we have better hoof health and ease of handling product." Dan Hinz, Wisconsin.

Get a FREE hoof care audit at HoofStrong.com.

HUVEPHARMA®

We all recognize the signs of Coccidiosis when it rears its ugly head with the bloody diarrhea. But, it is estimated that most production losses are subclinical. That's why many times Coccidiosis is referred to as the "Forgotten Disease' or others will call it the 'Silent Thief' even though it is estimated that dairymen have production losses in the millions of dollars per year from coccidia. **www.huvepharma.us**.

KUHN

Act Now to Secure Your Savings!

Take advantage of KUHN's coupon programs before they end on July 11th, 2025. Save up to $8,000 on select KUHN hay tools, including mowers, mower conditioners, rakes, mergers and inline balers. Visit our website to learn more about the specific tools eligible for discounts and find the perfect equipment to meet your needs! **www.kuhn.com**.

Agri-Comfort

THE LIVESTOCK COMFORT SPECIALIST

Agri-Comfort offers high-quality farm solutions – from rubber flooring and mattresses to slat flooring and comfort brushes. Our comfort brushes help cows stay clean and relaxed, reducing stress and encouraging productive downtime. We support dairy producers worldwide in improving cow comfort, hoof health, and milk production. Our products reduce lameness and enhance hoof care, leading to better overall performance. Scan the QR code to learn more at **Agri-Comfort.com**.

AGRI-PLASTICS

The Calf Housing Specialist®

The Agri-Plastics 10 Qt. (9.4L) Pail is a customer favorite – and for good reason! Made from tough, durable plastic, it's built to last and can handle tough farm conditions. The smooth, curved inside makes cleaning easy and gives calves better access to feed or water. A sturdy metal handle makes it easy to carry or hang.

HOOF-ZINK® E-Z LIQUID

Break the copper habit!

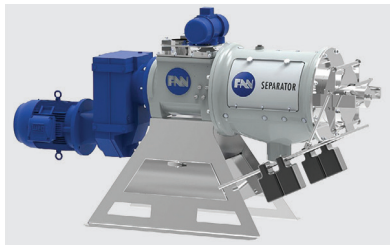
Hoof-Zink EZ Liquid is an economical footbath concentrate for use in the treatment and control of hairy heel warts. Our patented liquid zinc formula mixes into solution easily and will not freeze until -4O°F. Hoof-Zink is great for digesters, and it is not a dangerous toxin like Formaldehyde. Hoof-Zink enriches your crops unlike copper, and can be used year-round. Make the switch today!

BOVINE BLUELITE®

by TechMix

Proven to help lower body temperature, Bovine BlueLite® also promotes water and feed intake, helps restore electrolyte and energy balance, and helps maintain milk production during heat stress periods. Bovine BlueLite technology is built on a palatable and buffered source of electrolytes combined with energy sources. Our formulation contains components that help to maintain cell volume and fluid balance and is also fortified with antioxidant vitamins necessary for combatting toxins. Cool Your Cows from The Inside Out® with Bovine BlueLite®.

BAUER
FOR A GREEN WORLD



The Press Screw Separator PSS by FAN covers a broad spectrum of applications, from agriculture over biogas and bioethanol plants and food processing to the chemical industry. The innovative technology separates sewage in its solid and liquid elements. The secret of the versatility of the Press Screw Separator PSS is that it can adjust to different dry matter contents. Compared to conventional separation systems the PSS is time and cost efficient. **www.fan-separator.de/en/products/separator-pss**.

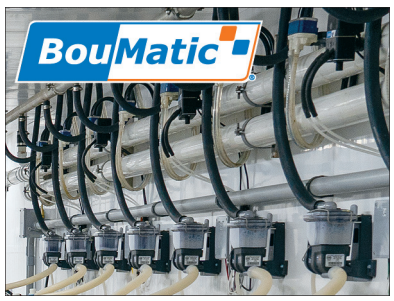
Hampel's CALF-TEL®

A Bigger, Better Way to Stay
The Mammoth is Calf-Tel's largest group calf hutch—designed for strength, space, and streamlined care. It provides a generous **110-square-foot total footprint** for flexibility and calf comfort. The heavy-duty, all-plastic base is rot-, rust-, and corrosion-proof. A wide entry, extra-large rear door, and top-tier ventilation make for easier access, healthier calves, and faster cleaning. From efficiency to durability, the Mammoth stands tall.
Go big. Go Mammoth. Calf-Tel.com

Norbrook®

FDA-Approved Cefenil® RTU (ceftiofur hydrochloride sterile suspension) is an alternative, cost-effective treatment, with zero milk discard and shortened withdrawal time. Norbrook® is the first to offer a generic RTU injectable that treats acute metritis. Trust Norbrook® to deliver the right tool for the job. Contact your veterinarian or visit norbrook.com for more details. **1221-591-I02C**

BouMatic®



The MagStream meter ensures a continuous and completely free milk flow and air flow. This meter has the lowest occurrence of vacuum drops and fluctuations of any meter on the market today. Thanks to advanced technologies for power management, data communication and recording, it is the first milk meter that is completely wireless. The MagStream records milk yield and flow rate of individual cows during each milking with the highest accuracy. Learn more at **boumatic.com/magstream**.

novonesis
Bovamine® Dairy Plus

Benefit from a billion years of biology.

Every part of herd management matters. Support the health of your dairy herd with our versatile range of sustainable biosolutions like Bovamine® Dairy Plus probiotic.

Big challenges? Think biosolutions. Think Novonesis.

Chr. Hansen and Novozymes are now Novonesis, your leading biosolutions partner. Or visit **Novonesis.com**.

PROTEKTA®

Reasons to manage hypocalcemia differently
High blood calcium levels in your prefresh pen are vital. Cow longevity is important, too, right? When you focus on preventing hypocalcemia — using a research-proven prefresh strategy that reduces the uptake of phosphorus and ensures high blood calcium concentrations — you also focus on improving a cow's lifetime performance. Read about the influence the transition period has on cow longevity and ultimately on your farm's profitability. **Visit Protekta.com**.

US VET
VETERINARY PRODUCTS

United in our commitment.
With over 30 years of pharmaceutical experience, a stable of established brands, and an ability to react quickly to changes, US VET™ is constantly developing new solutions to help improve your business. Combat dehydration and stress during the hot summer months. Bovine Accellyte II is a specialized electrolyte designed to promote feed and water intake during periods of stress. To learn more, visit **www.selectsires.com/maximize-cow-performance** or contact a Select Sires representative.

Shearwell Data
Livestock Systems

Shearwell BOS Tags
"Big shoutout to Shearwell Data for getting our new cattle tags out fast and looking sharp! We just got in our custom printed 2-piece BOS tags, and we couldn't be more impressed with the quality. If you're in the market for livestock ID tags, check them out - super smooth process and great customer service."

Ask about Shearwell's FREE applicator offer with your first tag order. Reach out to their helpful staff. Call 1-800-778-6014 **www.shearwell.com**.

MAKING EVERY DROP COUNT | your DAIRY CHECKOFF Dairy Management Inc.

Checkoff Investments In New Products Drive Milk Sales
See how trendy innovations like ultra-filtered, lactose-free and reduced-sugar milk can change the fluid milk narrative. Learn more at **https://www.dairycheckoff.com/**

2025 Summer Showcase Product Spotlight

Axiota®

Axiota® discovers, develops, and commercializes scientifically proven products, such as Multimin® 90 (zinc, copper, manganese, and selenium injection) and Lactipro®. Axiota's non-antibiotic solutions support dairy producers' goals of optimal health, performance, and animal well-being. To learn more, visit **www.axiota.com**.

MENSCH MFG.

Mensch Manufacturing's Light Material Side-Shooter Trailers are built for efficiency and quality. Steep sides prevent bridging—no agitator or vibrator needed. Bed head-to-head stalls inone pass with adjustable unload distance from 3 to 25 feet. Choose from W 3360 (10 yd struck/13 yd heaped) or W 3381 (13 yd struck/16 yd heaped) models. Options include tractor hydraulics and single axle. Designed for dairy farmers who demand reliable performance.

VALMETAL

It's a tough life!

That's why our Nova-Cable cable scraper system delivers unmatched power, efficiency, and reliability in the barn. It operates with 40% less energy while handling 200% greater loads than competitors. With just one moving part, maintenance is minimal, and operation is maximized. Valmetal connected controls keep you informed and make it easy to manage the entire manure system. Customizable to fit your barn, it adapts to any environment - steel or hybrid cables, up to 2,600 feet. **Learn more on the Nova-Cable**.

AHV®

AHV (Animal Health Vision) is a global company that provides science-based solutions to herd health challenges and gives #PowerToTheFarmer. By proactively addressing bovine health, farmers can maximize production and longevity while avoiding milk and meat withdrawal! AHV provides unique products that can formulate strategic solutions to address udder health, uterine health, calves, and energy and metabolism challenges specific to your dairy. Contact your Farm Advisor for a custom on-farm consultation. **www.ahvint.com**.

HOARD'S DAIRYMAN FARM CREAMERY™

Hoard's Dairyman Farm Creamery cheese is crafted with milk from one of the most storied dairy herds in the country. It is the oldest continuously registered Guernsey herd in North America and has been a consistent award winner for quality milk production. We are proud of our dairy cows and the milk they provide for our extraordinary cheese, and we're privileged to be carrying on the tradition of excellence W. D. Hoard established in 1899. **www.HoardsCreamery.com**.

Young Dairy LEADERS Institute

Young Dairy Leaders Institute (YDLI) is a dairy-focused, three-phase leadership and communication skills development program for young adults ages 22-45, sponsored by the Holstein Foundation.

In the upcoming 14th YDLI class, Phase I will be held February 2-5, 2026 and Phase III will be held February 1-4, 2027. Both meetings will be held in Dallas, Texas.

"**YDLI** is a unique opportunity to build leadership skills outside of the workplace that benefit all aspects of your life. I really appreciate the balance of structure and flexibility that allows you to tailor your development to match your unique goals. This allowed me to focus specifically on areas that I was interested in including innovation, networking, and personnel management. I would highly recommend this program to anyone interested in developing their leadership skills."
- Carlyn Peterson, California

Applications for YDLI Class 14 are now available and due August 1, 2025. Scan the QR code to learn more and apply today!
